2 Read the text and then answer the questions.

My friend Mark sends me voice messages most days. He sends them when it is morning for him. He lives in California now so it is morning for him when it is night time for me. This is what his last voice message said:

'Hello Jason. Guess what? Our teacher is sick and there isn't another teacher for us so we are having fun in class. Some of the boys are watching a film on a tablet. It sounds like it is a very scary film! A group of girls are singing a song – badly! One girl is studying – she is always top of the class. Some people are drawing a picture of the teacher and it's quite funny. I am taking photos of everyone.'

I like hearing about what Mark's doing at school when I'm in bed and it's dark outside. It's nice that we have technology to keep in touch with our friends when they live far away. I miss Mark a lot. He's my best friend, but it's okay because he sends voice messages and at weekends we talk on the phone. We also use social media to swap photos and stories.

I live in London. Mark usually lives in London, but his parents are working in California for a couple of

years. I like hearing about California because there are so many differences between California and London. It sounds like people are not always rushing around like in London and Mark is doing a lot of water sports there, too.

Mark's parents often travel to different places for work and Mark goes with them. One of the best things about it is that I sometimes visit him. My parents say I can go and stay with Mark in the summer, so I am very excited about that!

Example:

What part of Mark's day does Mark like to send Jason voice messages?

When it's morning for him.

- 1 Why was everybody having fun in Mark's class in the voice message?

- 2 What kind of film were some of the boys watching?

- 3 How many of the people were studying?

- 4 How long is Mark staying in California?

- 5 When is Jason going to visit Mark?
