

# Secondary 4

**CORE**

# MATHEMATICS FOR ACADEMIC PURPOSES

## Student's Book

Contents	Page
<b>Unit 1</b> Real numbers .....	2
<b>Unit 2</b> Powers, logarithms and financial maths .....	12
<b>Unit 3</b> Polynomials and algebraic fractions .....	28
<b>Unit 4</b> Equations and inequations .....	46
<b>Unit 5</b> Systems of equations and inequations .....	60
<b>Unit 6</b> Plane geometry and geometry of space .....	74
<b>Unit 7</b> Trigonometry .....	90
<b>Unit 8</b> Analytic geometry .....	108
<b>Unit 9</b> Functions .....	120
<b>Unit 10</b> Limits of sequences and functions .....	132
<b>Unit 11</b> Polynomial and rational functions .....	146
<b>Unit 12</b> Exponential, logarithmic and trigonometric functions .....	156
<b>Unit 13</b> Combinatorics .....	166
<b>Unit 14</b> Probability .....	174
<b>Unit 15</b> Statistics .....	186

All the written activities in this book should be completed in your own notebook, and not in this book.

### CLIL **CORE** activity types

thinking

speaking

listening

explanation needed
