Our ideas for a new app!

The types of apps we like are useful for ...

making friends

staying healthy

having fun

earning money

doing well at school

being organized

.....

.....

NAME of our app

.....

Why it's useful

.....

but now

.....

.....

.....

TIP

- Think about how life would be BETTER and EASIER with our app.
- Compare life without the app to life with the app.

DON'T FORGET! ★ used to / didn't use to

I use **similar** **different** apps to others in my group.

I'd love to **develop apps in real life.**

How our app is accessible to everyone

How can we improve accessibility?

We've added these features ...

Our app is useful for people who need help with ...

- mobility
- sight
- hearing
- communicating
- reading

We've

.....

Ideas for our pitch to investors

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

We think our app will succeed because ...

.....

.....

.....

TIP

- Include both **FACT** and **OPINION** when explaining why your app will be a commercial success.

We need money from investors for ...

-
-
-
-

It was **easy** **difficult** to make our app more accessible.

I think I'd be **brilliant** **good** **OK** at doing a real pitch!

Teacher check

Reflections **Log** My thoughts on this project ...

I learned how to ...

talk about using smartphones and apps

find solutions to problems

make a product more accessible

talk about past habits

do a pitch for investment

write a persuasive ad

Our app is ★★★★★

I think our app is
because

New language for me:

We use

I think our group pitch was

I'm about how I learned
my part for the presentation.

I really enjoyed

When my classmates ask
me questions, I feel

I wish I was better at

For our project, I ...

- wrote the final script
- created a logo
- designed visual support
- took part in the presentation
- answered afterwards

I felt
about our roles.
