

**A** Read.

**Art Class Collage**

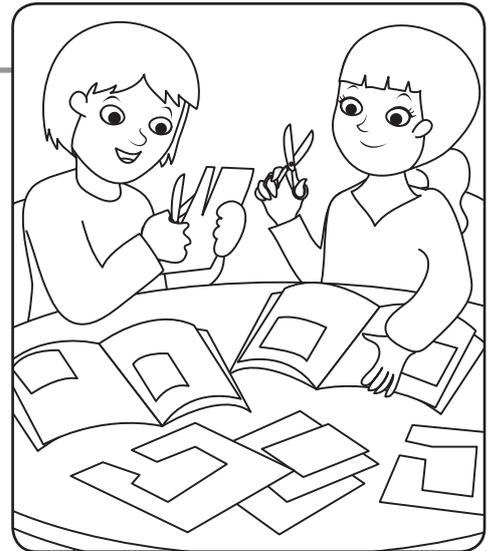

Miss Parker showed the class a colorful poster. “This is called a collage,” she said. “You can make it by cutting out pictures from newspapers and magazines. Then you glue them to the poster. What do you think?”

“Can we make one?” asked Elsa.

“Yes. Help with the supplies,” Miss Parker said.

Every student in the class got a glue stick. Some students wanted to use tape. They shared newspapers and magazines. They cut out pictures and words they liked. Elsa and Mark made a collage about sports.

“It looks cool,” said Elsa. “Let’s make another!”
