## Skills practice

- The Online Practice provides your students with engaging, systematic, and well-developed skills practice, aligned to the CEFR.
- **Reading** and **listening** sequences are based around a main text or audio recording. Each sequence presents and practices a strategy that learners will use in their own language, e.g., listening for important words. There is also a sub-skill that teaches the learner to understand the text or audio recording by looking at individual meanings or grammatical characteristics, e.g., listening for sentence stress.
- **Writing** and **speaking** sequences both present students with a model (text, audio recording, or video) and a sub-skill, and lead them towards a productive task. The students are given step-by-step instructions, with additional support, such as key phrases, provided in the *Quick tips* boxes.

- Strategies, sub-skills, and key phrases are all given through the *Quick tips* boxes. These boxes may also contain glossaries, offering guidance on differences between American and British English vocabulary and spellings.

## Managing the Online Practice

All activities, except for speaking and writing, are automatically graded, helping students to identify their strengths and empowering them to focus on areas for improvement. Scores are recorded in a progress report for the teacher. Teachers are able to create online classes for their courses, assign content by unlocking it, and track their students' progress. Teachers can easily view and compare student and class progress.

The "Discussions" tool enables teachers and students to post and reply to questions for further written practice. The "Messages" functionality allows teachers and students to message anyone in their online class, giving students the opportunity to practice their language skills in a secure, real-world environment.
